

Provisional Points System

SKFSA understands that there will be circumstances throughout the season requiring drivers to miss races. To compensate for this, all drivers will be granted **6 provisionals** to use in each series throughout the year.

“Drivers unable to attend league races will be awarded the equivalent number of points corresponding to the position behind the last place driver in the respective event.” In other words, if there are 12 drivers racing on a night you missed, you will receive the same number of points as the 13th place driver would have received.

Once you have used your 6 provisionals, you will receive no points for additional missed races.

Thank you for racing with us,
\\ SKFSA Administration
